

Short-Term Rental Regulation Program - Parking Management

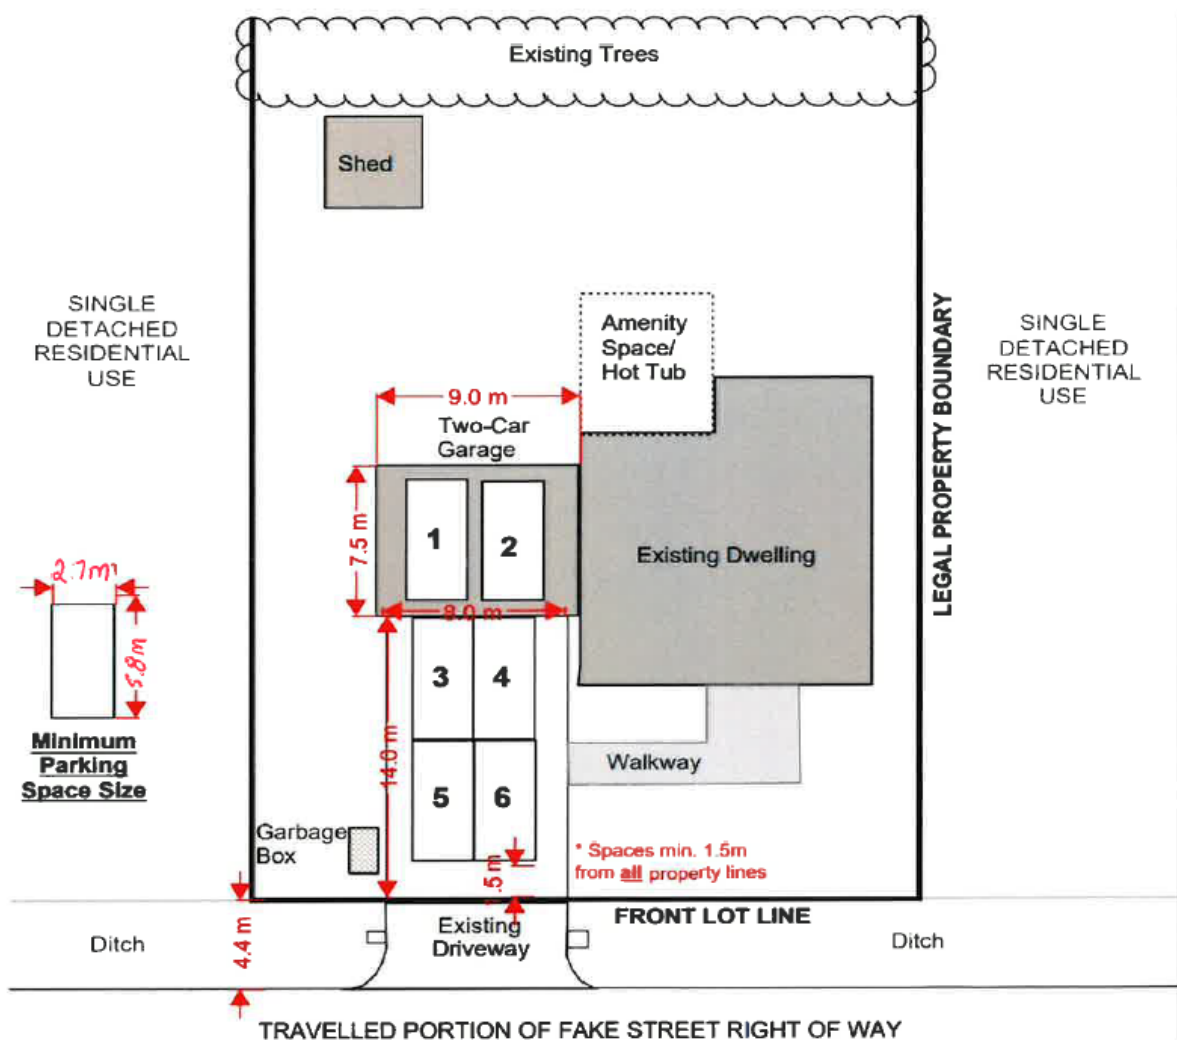

Parking Management is designed for the Short-Term Rental Regulation owner to be in compliance with the applicable Zoning and Parking Control Bylaws.

Parking Management Plan Requirements

All owners who apply for the registry for the Short-Term Rental Program shall provide a Parking Management Plan which outlines where all the designated parking spaces shall be located and the dimensions of the parking spaces. Note: this plan can be hand drawn (See example below)

This Plan shall be kept readily available at all times and posted at the front of the entrance in a conspicuous location of the rental.

Example of Parking Site Plan

Note: The required number of parking spaces is dependent on the size of each parking space, which is to be a minimum width of 2.7 metres and a minimum length of 5.8 metres in accordance with Zoning provisions.
