

UPDATING POLICIES

Throughout the community consultations local citizens, Advisory Committee Members and Community Connectors were asked to reflect on their comments and ideas in such a way that they could provide well-formed policy recommendations.

A policy is more than just a goal and must have a stated course or principle of action to be effective.

To assist with this, persons were asked to go through the thought process of targeted questions shown below.

WHAT?

DESCRIBE AN OPPORTUNITY:

What did you notice?

What has stood out?

What change do you envision?

Understand
community strengths
and assets, and
discover new actions
and solutions

SO WHAT?

CONSIDER IMPLICATIONS:

Who is affected?

How are they affected?

What are the benefits?

NOW WHAT?

DESCRIBE AN ACTION:

What action makes sense?

Can the community do this on their own?

What support would be needed?

What could the Municipality do?

When would this happen?
