Structure BR-035 Rehabilitation (Lakeshore Road South)

Dear Property Owner/Resident

The Municipality of Meaford is undertaking a construction project in your area. We would like to share the following information regarding the project and how it may impact you.

Project Details

Location: Structure BR-035 located on Lakeshore Road South between Centreville Road and Algonquin Drive

Schedule: Anticipated Start: June 15, 2026
Anticipated Completion: September 18, 2026

Scope: Concrete repairs, barrier replacement, asphalt replacement, road stabilization, guiderail install on Centreville Road next to structure, and installation of watermain on the structure for future use.

Contractor: Arnott Construction Ltd.

How will the project impact you?

Road Access: Lakeshore Road South will be closed at the bridge and alternative routes must be used for all through traffic.
Residents will continue to be able to access their properties.

Drinking Water: No interruptions to drinking water quality or availability are anticipated.

Waste Collection: If your regular pick-up point for garbage and recycling is temporarily blocked by construction, the Contractor will assist in collecting and transporting your garbage and recycling to a predetermined collection area.
Please ensure house numbers are clearly labeled on all Garbage and Recycling Containers to ensure they are returned to the proper address.

Noise: Residents and property owners should expect some noise during construction times.

Dust: Residents and property owners should expect dusty conditions during some construction activities however efforts will be made to reduce dust as much as possible.

**Vibration:**

The possibility of vibrations due to compaction equipment during construction is not anticipated to be significant but residents should protect valuables that may be susceptible to damage because of vibration.

How can you help?

To make things easier to complete the work you can help by:

- Not parking on the roadway during construction.
- Ensuring your [Garbage and Recycling](#) is placed for collection by 7am.
